REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: prior art of record does not disclose or suggest to combine a gas laser using fluorine gas where the anode is formed in a shape of a reef. US patents 4,825,446 and ,4686,682 disclose gas lasers with one of the electrodes formed in a shape of a reef with vias and protrusions, however the electrode specified is a cathode not an anode, also the gas used in the lasers is not fluorine. It would not be obvious to interchange anode and cathode since the electrodes erode in a different manner during the discharge. For these reasons the prior art of record does not teach the device claimed in the present application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marcia A. Golub whose telephone number is 571-272-8602. The examiner can normally be reached on M-F 9-6 pm.
